LOGOS

Several variants of the logo are planned to meet the different constraints of the media in which it will be used.

In order of priority ∨

- Vertical logo
- Horizontal logo
- Icon

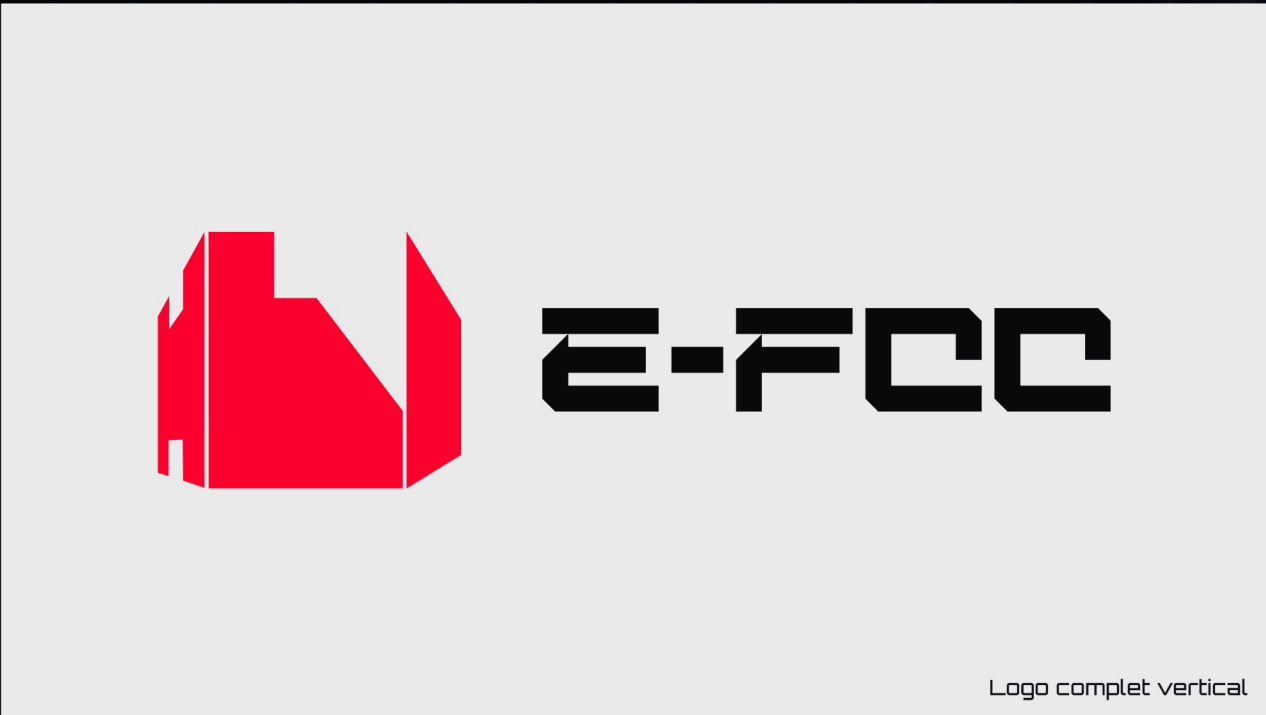

READABILITY

The legibility of the logo is essential. That is why a minimum size is required.

For the version with text, the minimum size differs between the vertical and horizontal variants, thus ensuring that the text is easy to read.

The size of the icons is the same. Reference can be made to the letter P, which is in the same orientation on both variants.

COMPOSITE

The composite logo is available in two versions, depending on your needs.

For readability reasons, the composite only includes the vertical PGW logo.

The separation between the two logos must correspond to the width of the <<WALL>>. 86PX

COLORS

The E-FCC color palette embodies the game’s core philosophy – a balance between real-world intensity and digital energy. The tones of black, grey, and white reflect precision, discipline, and the technical identity of FAST CLOSE COMBAT, while pink and red capture the tension, adrenaline, and impact of each duel.

The secondary colors, Green Flash and Purple, bring a vibrant, futuristic edge, symbolizing the bridge between the physical and virtual worlds. Together, they create a strong, modern, and instantly recognizable visual identity – the signature aesthetic of the E-FCC universe.
